## OUR ROOTS

*In 1870, the courageous and capable young man named Balthasar Ress, a trained butcher, founded the „Gasthof Ress“ in Hattenheim in the Rheingau. Driven by his motivation to be a good host and to create **FINE WINES AND FINE MOMENTS**, he laid the foundation, not only for a long gastronomic tradition and hospitality in the Rheingau, but also for today's wine estate Balthasar Ress. The gene of being a good host is in our blood - which is why we still follow this motivation with joy today.*

## SINCE 1870

*The Balthasar Röss wine estate, which over the years has become an organically managed wine estate, is still owned by the Röss family today, a good **150 Years** after it was founded. In 2010, Christian Röss took over the management, ushering in the 5th generation of the family business. His vision, together with his team, is to produce the finest Rieslings, the finest Pinot Noirs and unforgettable moments in the most beautiful places in the world.*

## TOP RHEINGAU VINEYARDS

*Following our maxim »FINE BE THE WINE«, which was already incorporated into the Röss family crest, we create Rieslings and Pinot Noirs of a special kind. We are one of the few wine estates in the region to have an exceptional portfolio of top Rheingau vineyards which extend over the entire area from Hattenheim to Assmannshausen. The share of our vineyard areas classified as VDP.ERSTE LAGE® and VDP.GROSSE LAGE® is around 70 percent.*

## ORGANIC VITICULTURE

*In order to be able to preserve our vineyards for future generations, we decided in 2016 for the operational conversion to a certified organic wine estate. The gentler way of working not only has a positive effect on the soil and the environment, but also protects our employees from possible health risks. As the largest organic wine estate in the federal state Hessen, we want to set an example with our philosophy. Thus, Balthasar's very first maxim »**PURE BE THE WINE**« is gaining in importance even generations later.*

## WINEMAKING

*Our winemaker, Stephan Sanger, is responsible for refining our wines. He believes that wine is at its finest in its natural form. He relies on spontaneous fermentation, works with as little sulfur as possible, and allows our wines the **REST AND TIME** they need to develop into authentic wines of the house. The combination of top Rheingau vineyards, certified organic viticulture and gentle, artisanal grape processing is what makes our wines so fine.*

## RESS' SERVICE

»FINE BE THE MOMENT« is our third maxim. Creating a fine moment doesn't always take much. Yet at Balthasar Ress, we leave nothing to chance when it comes to your event. We provide you with the opportunity to be a fine host yourself and put everything in motion to create unforgettable moments. That's what Ress' service stands for.

## EXTRAORDINARY

*Balthasar Röss is known for its **COURAGEOUS IDEAS**. The large bottle storage facility in the historic vaulted cellar of wineBANK® Rheingau and our vine lease scheme are just a part of our extraordinary offer. The vine lease is particularly suitable as a gift. It gives the owner his or her „own“ vine, a bottle of wine every year and much more. Discover the Rheingau from a completely different side by joining our various wine tastings and hikes. Our carefully selected wine packages are also suitable as a sophisticated gift or an exciting wine experience at home.*

# VDP

**SINCE 1989** we have been a proud member of the VDP - Verband Deutscher Prädikatsweingüter. The VDP is an association of around 200 wineries with the mission of creating origin-based, high-quality wines. Member wineries are subject to the association's strict quality control regulations. The association's own classification system in the form of a pyramid classifies the vineyard sites ascending into VDP.GUTSWEINE, VDP.ORTSWEINE, VDP.ERSTE LAGE® and finally VDP.GROSSE LAGE® at the top of the quality pyramid. The eagle as a trademark guarantees the quality of each bottle.

REGIONAL WINES

The classification VDP.GUTSWEIN forms the basic segment of the origin-based quality hierarchy. At this level, a high quality and the unmistakable signature of our Balthasar Röss wines are already evident. The grapes are 100% from the wine estate's own vineyards - this is what makes them so authentic and also gives an idea of where the journey may lead as the quality level increases - simply good.

Balthasar Röss, the founder of the wine estate, used to offer specially selected wines under the name „VON UNSERM“. For over 150 years, we have maintained this brand. At the end of the 1980s, the wine found its current identity - as a liquid business card of the house in the form of dry Riesling and Pinot Noir.

»BLACK LABEL«

Our Black Label wines are so-called „Natural Wines“. Completely unfiltered, unsulfured, natural and vegan, they are all vinified dry in wooden barrels and are then left in those to rest on their lees for at least one year. With their unique aromas they embody the courageous wines from Balthasar Röss.

VILLAGE WINES

Our VDP.ORTSWEINE are a real insider tip. As ambassadors of their community, a large part of the grapes often come from our VDP.ERSTE LAGE® and VDP.GROSSE LAGE®. The terroir reflects their Rheingau origin and our personal signature. In order to extract a particularly unique aroma from the berries, we regulate the yield and almost always ferment the grapes spontaneously.

ERSTE LAGE<sup>®</sup>  
PREMIER CRUS

Our VDP.ERSTE LAGE<sup>®</sup> wines are almost at the top of the quality pyramid. They are all outstanding and distinctive in their own way. In these sites, we refrain from high yields and plant only the grape variety best suited for that vineyard. The grapes come from our top certified vineyards. This is what makes these wines so long-lasting.

The resulting VDP.GROSSES GEWÄCHS® wines are regularly awarded prizes and can compete with the best in the world. They usually only demonstrate their full potential after many years.

## VDP. SEKT

Our sparkling wine is produced by the method of classic bottle fermentation, as used for Champagne. Our base wine is bottled and undergoes the second fermentation. This is usually followed by 15 months of aging on the lees, after which the bottles are periodically shaken to release the remaining yeast into the neck of the bottle. Finally, after disgorging, which is the process of removing the yeast, the sparkling wine is ready to be enjoyed.

## POMACE & WINE- BRANDIES

For the production of our pomace and wine brandies we use only the finest grape material. When it comes to distilling our wine brandies in compliance with strict regulations, we consult renowned and experienced master distillers. Our exquisite distillates are created with a lot of competence and intuition from years of distilling experience.

## BALTHASAR'S ELEVEN LONDON DRY GIN

In 2018, our first Balthasar's Eleven London Dry Gin was launched. Unlike conventional distilled gin, London Dry Gin is subject to very high-quality standards. Together with Hubertus Vallendar, one of the most renowned distillers in the country, we created a unique gin from Riesling flowers sourced from our vineyards and 10 other special botanicals.

## TREASURE CHAMBER

The Balthasar Röss treasure chamber gives our wines the time they need to develop their full potential. The complete development of their complexity can take many years, especially in the case of great wines. The vaulted cellar hidden in the Manor House offers optimal conditions for long-term storage. Thus, even wines dating back to 1920 are regularly controlled, re-corked and protected.
